BREADTH OF THE

THREE CHILD OUTCOMES

The three <u>child outcomes</u>, measured by early intervention and early childhood special education systems, encompass functional skills and behaviors that are meaningful for a child's participation in everyday routines. They cut across developmental domains to represent the integrated nature of how children develop, learn, and thrive. The breadth of these outcomes provides a framework for describing and consistently measuring children's functional skills and behaviors across settings and situations.

Relating with Caregivers

Demonstrate regulation and attachment, respond/initiate/sustain interactions, acknowledge comings and goings...

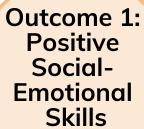

Attending to Other People in a Variety of Settings

Express awareness/caution, respond to/offer greetings, respond to own/others' names...

Interacting with Peers

Convey awareness, respond/initiate/ sustain interactions, share/cope/resolve conflicts, play near and with peers...

(including social relationships)

Outcome 2:

Knowledge

and Skills

Participating in Social Games & Communicating with Others

Respond to/initiate/sustain games and back-andforth communication, demonstrate joint attention, engage in mutual activity, follow rules of games...

Following Social Norms & Adapting to Change in Routines

Transition between activities, respond to new/familiar settings/interactions, behave in ways that allow participation, follow routines and rules...

Expressing Own Emotions & Responding to Emotions of Others

Show pride/excitement/frustration, manage own emotions, display affection, and comfort others...

Persist, show eagerness and awareness, imitate/repeat actions, explore environment...

Understanding Pre-Academic & Literacy Notice differences or associations among things,

Notice differences or associations among things, demonstrate matching/sorting/labeling by size/color/shape/numbers/function, interact with books and pictures, practice early writing and reading...

Using Problem Solving

Figure things out, use trial and error, remember steps/actions and execute them with intention, experiment with new/known actions...

Acquisition and Use of

Learn and use sounds, words, and sentences with increasing complexity including sign language and augmentative and alternative communication (AAC)...

Acquiring Language to Communicate

Engaging in Purposeful Play

Show early awareness and exploration, use objects according to function, play by building, pretending, organizing and expanding play scenarios and roles...

?

Understanding Questions Asked & Directions Given

Respond to gestures/verbal requests, understand meaning of increasingly complex words/questions/ directions, know and state details about self (e.g., name, age)...

Moving Around & Manipulating Things to Meet Needs

Move with increasing control and purpose (e.g., reach, roll, crawl, walk, run, climb) to navigate the environment - with accommodations as needed, manipulate objects/tools (e.g., crayons, scissors, switches, fragile items) with increasing control...

Suck/swallow, chew, bite, finger feed, use utensils, hold bottle, drink from cup, show growing independence with amount/type of food eaten, access food and feed self....

Assist with dressing, take off/put on shoes and clothes, undo/do fasteners...

Outcome 3: Use of Appropriate Behaviors to Meet Needs

Diapering/Toileting & Washing with Increasing Independence

Lift legs for diaper change, sit on potty, wash hands, brush teeth, help with bathing...

Communicating Needs

Indicate hunger/need for sleep/diaper change, express discomfort/hurt, request or reject food, express choice/preferences...

Showing Safety Awareness

Avoid dangers (e.g., putting things in mouth, touching hot stove), follow safety rules across settings and situations...

Note: This awareness is less evident in very young children
